1 In G/O No 5783-4 dt 19/5/04 a sum of Rs 1,000 was sanctioned for the purchase of tools and materials and for erecting the necessary Sheds The D/C now states that out of this sum, Rs 500 has already been spent for purchasing tools and so the balance available for erecting a Shed is only Rs 500 and from this small sum only a cutcha building with mud walls and pot tiles can be built But the Dy Commr and the Municipal Board are not in favor of erecting such an unsightly building close to the Memorial Hall It is therefore now proposed to erect a fairly permanent Shed at the following cost ——

as metal expenditure

been brought to the notice of Govt when sanction to the establishment of a school at Cheladdey under the Agra which prescribed the limit was recommended by the DyC in his letter of 9th April/04. The question is not what the considerations were that induced the Govt to prescribe the limit but whether the DyC had no reason for the limit when he made his recommendation & if he had did not why he did not in time bring to the notice of Govt that that limit required in this particular case had to be unavoidably exceeded.

The location of this school in the old Zalim Cheladdey seems out of the question

SIR

I have the honour to inform you that after providing necessary tools for the Chitaldroog Industrial School a small balance of Rs 500 from the sum sanctioned for initial expenditure is available for the erection of a Carpenter's shed at Chitaldroog As a cutcha building with mud walls and pot tiles can alone be built from the small balance the Deputy Commissioner of Chitaldroog and the Municipal Board are against erecting such a structure close to the Memorial Hall and the High School A copy of the Deputy

Commissioners letter on the subject is herewith enclosed for the information of Government The D P W. Sub-Division officer has prepared a plan and an estimate of Rs 985 for a fairly permanent shed with brick in mud walls and Mangalore tiles, and the Deputy Commissioner recommends a site which will cost Rs 150. Under these circumstances, I request that Government may be pleased to sanction an additional sum of Rs 635 to meet the cost of the proposed building as a portion of the initial expenditure from the Local Fund General It is not possible to rent a suitable place out of the amount of Rs 15 sanctioned for Contingent expenses by Order No Gv- 5783/4 dated 19th May 1904 which R will be required for other purposes

Bangalore

Sir,

In forwarding herewith, for your information, copy of docket No 3 dated 5th Instant from the Superintendent, Industrial School, Chitaldroog, together with an estimate for Rs 985 and a plan for the erection of a workshed for the said school, I have the honour to state that the site applied for by the Superintendent is of made up Earth uneven and near the trench, and does not appear to be well suited for the purpose. If only a Kutcha building is to be built, Rs 500/- anywhere near the High School building or the Chamaraj Memorial which has cost Rs 30,000/- the workshed would present an unsightly appearance quite out of keeping with the surroundings Rs 500/- is therefore hardly sufficient for the purpose I contacted the members of

of the Chitaldroog Town Municipal Board at the last meeting and they were also of the same opinion. They suggested that the site behind Purnayas Chatram and about 200 yards to the West of the Chamaraj Memorial would be more convenient and better suited for the purpose. This site which is not objected to by Mrs. Arbuthnott is, on enquiry, ascertained to belong to one Kadappa, a merchant of this place who purchased it for Rs 150/- at a recent court Sale.

I therefore request the favour of Government sanction being obtained to the estimate for Rs 985 submitted by the Superintendent for the erection of a Workshed with Mangalore tiles, brick and mudwalls with chunnam pointing in place of pot tiles and mudwalls, as also for payment of a further sum of Rs 150/- required for the acquisition of the site referred to above.

I have the honour to be

Sir

With reference to the above
has the honor to observe
that such applications

are highly inconvenient The

but should not apply for
additional grants bit by bit.
In the present case, he is
requested to explain why
he did not anticipate

provide for it in the Bud-

he could have known that
out of the sum of Rs 500 available,
only a cutcha building could be

waste of public money.

From

Inspector General of Education in Mysore

To

B K Venkatavaradhengar Esq.
Secretary to the Government of H H
the Maharaja of Mysore,
General & Revenue Depts

SIR,

With reference to your docket No (1437)-37-Ed. dated 18th August 1904 calling upon me to "explain why I did not anticipate the expenditure in question and provide for it in the budget with due sanction", I have the honour to point out that the sanction of Government for establishing an Industrial School at Chitaldroog was conveyed to me by para 3 of Order No 14668-77-Ed 74-96 dated 7th April 1903 on a general Memorandum of mine on Industrial Schools in Mysore dated 7th March 1902 In this Memorandum no estimate of the initial expenditure or the cost of establishment of any of the proposed Industrial Schools was given by me But Government of their own accord in para 3 of the above Order laid down that "the initial cost

Flag O-
Para 3 of the order

Flag O

should in no case exceed Rs 1000 and the annual cost between Rs 1200 and Rs 1,500 and both will be debited to Local Funds General." I am not aware of the dates on which these limitations of expenditure were fixed by Government, and I have been at considerable pains to try to keep within the limits fixed in the case of each industrial school Before these limits were fixed, I was not given an opportunity of ascertaining the exact requirements of each locality Local conditions are not the same in all places. In some cases a cheap house has been rented, and a carpenter's shed open on all sides has within the compound of the house been erected from the provision for initial expenses At Chitaldroog there are special circumstances, which have to be considered. No rented house could be found but one, and even that after it had been rented has been re-occupied by the owner from 1st July after the commencement of plague this year A room in the Town Hall is utilised to store tools and materials, but as the Town Hall has not an enclosed compound, no open shed could be erected close to it, and the available balance of Rs 500 after providing the necessary

tools can only suffice to erect a Kutcha building of the required dimensions The Deputy Commissioner and the Municipal Board naturally object to a Kutcha building as unsightly in close proximity to Town Hall.

2 It was under these circumstances I asked for a special grant of Rs 635 to be added to Rs 500 available from the initial cost of Rs 1000 sanctioned by Government From the 1135 Rs it is proposed to buy for Rs 150 an acre of ground along the ramparts which has a small building on it suitable for a store room, and to erect on the site a pucka room for the carpentry school covered with mangalore tiles for Rs 985 as designed and estimated by the D P W Sub-Division Officer

3 The school is now held as a temporary measure in the old Taluk Cutchery The Superintendent however reports that as orders have been passed to repair the building the school will have to be removed shortly. No other place is said to be available even for rent I request therefore that the special grant of Rs 635 asked for may be sanctioned or if that can not be done, the Industrial School may be permitted to

occupy the old Taluk Cutcherry until a separate building can be provided for it

I have the honour to be,
Sir,
your most obedient servant,
H J Bhabha
